WORK EXPERIENCE

Sales Base <https://int.usesalebase.com/>

Port-Hacourt Rivers-State, Nigeria

Full-Stack Developer (Contract)

April 2026 - July 2026

- Built a subscription billing system using Flutterwave, BullMQ, and Redis to manage trials, payments, failed charges, and automatic plan changes.
- Converted Figma designs into responsive React components, including pricing pages and dashboards with real-time subscription status updates.

Myhappr <https://myhappr.com>

Osun State, Nigeria

Backend Engineer/Co-Founder (Full-Time)

October 10th, 2025 - Present

- Co-founded and built a creator support platform that grew to approximately 200 users, enabling African creators to receive donations through local bank accounts and mobile money.
- Designed payment workflows supporting multiple currencies and secure payout processing.
- Implemented secure OAuth authentication (Google, X/Twitter) with JWT session management, token rotation, and device-level session revocation.

Perzsi Rentals <https://dev079.perzsirentals.com/>

Texas, United States

Full Stack Developer (Contract)

July 2024 – Dec 2025

- Developed multi-tenancy architecture and client-facing billing dashboards for an online rental marketplace for listing, managing and renting items.
- Single-handedly built the card management module using Stripe Elements, enabling users to securely add, manage, and remove payment methods.

Nexus Botix <https://nexusbotix.io/>

Abuja, Nigeria

Backend Developer (Full-Time)

Nov 2024 - January 2026

- Led API specification and OpenAPI/Swagger documentation efforts, reducing cross-team onboarding time by 50%.
